## **Volvo F10 & F12 at Work: 1977-83 (Trucks at Work)** Patrick W. Dyer

Volvo F10 & F12 1977-83 at Work follows the development of the highly successful F10 and F12 trucks, beginning with the N-series and ending with the legendary Globetrotters. The book is full of evocative photographs supplied by enthusiasts and drawn from the Volvo archive. Patrick Dyer's first book on Volvo, dealing with the F88 and F89, took the reader up to the F88 290 - a truck intended as a stop gap during the development of the F10 and F12. In 1977, the F10 and F12 with their dramatic new cabs were revealed to the world at the Frankfurt show. However, Volvo was never a company to rest on its laurels and in 1979 it delighted drivers and confounded the competition by introducing an entirely new concept to the market - the raised roof sleeper. The Globetrotter was born. The fine selection of over 200 photographs shows UK operators as well as continental ones. This collection of images, accompanied by informative text, will evoke a host of memories from people in the trucking world. Volvo F10 & F12 1977-83 at Work is a must-have for every Volvo enthusiast. This is the seventh book by Patrick W Dyer published by Old Pond Publishing. Patrick lives in Essex where his day job is in motor sport. He holds a Class One licence and drives whenever possible. He is the proud owner of a 1983 Volvo F12, finished in the livery of Edwin Shirley Trucking.
