## Theory and Practice of Adult and Higher Education

A volume on Theory and Practice of Adult and Higher Education or Foundations of Adult and Higher Education will appeal to both our graduate students and faculty as so many of them have been taking courses in both program areas and have been concerned with their defined areas of expertise. Although theories and practices in Adult Education, and in Higher Education are being used interchangeably, there is a lack of scholarly work that connects existing theories and practices across the two fields. The proposed ground-breaking volume will cover topics/theories/practices in both fields of Adult Education and of Higher Education, and in doing so will bring to the fore the connections that make these two fields truly inseparable. The proposed volume will therefore generate new knowledge to share among faculty, graduate students and other researchers who practice not only in Adult Education, but also in Higher Education.
