**Creating E-Portfolios Using PowerPoint: A Guide for Educators** addresses the use of e-portfolios by pre- and in-service educators as a self-assessment tool and as a way to measure their students' performance. The first half of the book explains what portfolios are, what makes an electronic portfolio (or e-portfolio) superior to physical portfolios, and how they should be organized. The second half of the book addresses which computer programs can be used to build an e-portfolio, then presents detailed instructions on using Microsoft PowerPoint® to create effective, visually rich portfolios. A CD containing sample portfolios is also included.
