Second Growth Joan L. Cannon

Serge Dziminowicz is hampered by his past in a dysfunctional family. Having trained himself in self-sufficiency, he fends off approaches from women, shuns occasions for disappointment or betrayal. A college classmate is his only friend. He cannot trust others, or himself. With success come real surprises. Through his professional ability, he meets not only a wife, but a new luxury, a startling attachment with horses, a budding appreciation for the natural world, and a child he adores. When his career and his marriage both are destroyed by his feckless father, his reputation and his livelihood in shambles, he is forced to leave behind. In rural Vermont, he stumbles on a way of life that nourishes a second growth. A near tragedy is the catalyst that enables him to dare to trust. He ultimately learns he must lower his own barriers. *Second Growth* is about overcoming the past, about learning how to accept as well as how to offer help. A brilliant physician must find a way to heal himself — in spite of himself.
