35 Complex and Beautiful Fractal Colouring Designs for Adults: Challenging Designs for Expert Colourists (Volume 1) Jacob A Bettany

It is no exaggeration to say that in this book you'll find some of the most challenging and intricate collections of colouring patterns you can buy - and also some of the most beautiful! Containing 35 individual designs, each image is something of a work of art in itself. Completely unique and never before seen, each design inside the book is based on a computer generated image called a fractal. This collection ranges from relatively straightforward repeating patterns, with subtle variations, to extremely detailed, complex designs which will be challenging to even the most expert colourist. The patterns gradually increase in complexity as you go through the book, with the idea that you will need quite a bit of practice in order to tackle the more intricate designs. In order to avoid any issues with your ink or colouring materials bleeding through the paper, all designs are printed on one side only, and I have included a dotted line on the back of each image to help you cut them from the book in case you would like to frame or display your work. You can see some sample designs from the book on the Facebook page which you can find at <http://bit.ly/fractal-colouring>.
