In its ninth year the Cancer Chemotherapy Annual series has been renamed, reformatted and expanded to include a section on biological response modifiers. It is, and will remain, the only medium for oncologists to keep pace with the many thousands of articles published in their field. The international board of some seventy contributors now also includes experts in biological therapeutics, who have evaluated their segment of the international medical literature. The editors, H.M. Pinedo and B.A. Chabner, have secured the assistance of D.L. Longo, who qualifies as the director of the Biological Response Modifiers Program of the National Cancer Institute in Frederick, MD, USA.
