## **The Foundations of Successful, Life Enhancing Magic**

When it comes to practicing magic, there are only two rules for you to follow.

First, it doesn't matter how experienced you are, how much your ingredients cost, or how well you can remember and follow instructions. For success in magic, your state of mind is the most important factor — the most important factor by far.

Successful magic comes from a place of calm centeredness and focused intent, so meditate, visualize, or do whatever it takes to get into the right frame of mind. Remember: it is ultimately *your* energy that's shifting the reality of the Universe, so shape it well and use it wisely!

If you doubt that a spell will work, you've pretty much guaranteed that it won't. Approach it with anxiety, and you're likely to get mixed results or no results at all. A positive mindset is required at all times.

Second, Wiccans — and many other traditions of Witchcraft — will only work magic for positive or neutral purposes, **never seeking to harm anyone or anything**. The spells in this book abide by this important rule at all times.
