Lounging atop a kelp bed, cradling a pup, or plucking morsels from a prickly urchin, sea otters are endearing creatures. *Sea Otters* captures them at their best, tracing their life cycle and behavior, exploring how they spend their days, and describing their brush with extinction. Including where to see them in the wild, *Sea Otters* is the most charming and complete book on the subject and features wonderful photographs -- as well as an enticing new cover.
