The Foreign Exchange Market and Its Features: High Liquidity, High Leverage, Low Costs, Never Sleeping Trading Gianpiero Chironna

This work was born as an answer to a simple question: “What is the fastest financial vehicle to make money today?”. Under the word “vehicle” dictionary reports this meaning: “a machine which has an engine and is used to carry people from place to place.” Now from a financial point of view, if someone needs to make a travel, metaphorically, from the poor’s land to the rich’s land, he needs a financial vehicle. Everybody knows that there is a big difference between travelling by car and travelling by jet plane; moreover different abilities are required to drive these two means of transport. The same happens in the financial sector. So this work tries to give a quick view on the main characteristics of one of the financial tools used by professional investors: Forex! Actually Forex is not a vehicle and nor a tool, but it is a market, and not just a market, but the most large financial market in the world. This book should help shed some light on the way professional investors operate, and should be especially useful to those who may be considering utilizing on-line trading for investing.
