Dramatically Improve Your Hydrogeology Field Skills and Master New Advances in Groundwater Science

The Second Edition of *Hydrogeology Field Manual* provides the latest information on applied applications in groundwater sampling and water-quality assessment, aquifer characterization, contamination issues, karst applications, and more. The book includes actual procedures, real-world decisions, and many examples and case studies to help you understand the occurrence and movement of groundwater in a variety of geologic settings.

Filled with tips, tricks-of-the-trade, and anecdotes from seasoned field hydrogeologists, the book explains how to gain instant expertise in most field methodologies and expand your abilities for data interpretation ...and other essential skills. The Second Edition of *Hydrogeology Field Manual* features:

- Sage advice on how to collect hydrogeologic field data
- Guidance on drilling methods, safety, and work with drilling contractors
- A practical description of slug testing
- Effective site characterization methods
- Expert advice on monitoring-well design
- Over 250 skills-building illustrations and photos
- Two new chapters on karst hydrogeology, including characterization and performing dye tracer tests
- All chapters have new material, including more examples and worked problems

If you are still in college, a recent graduate, or a working professional needing a ready reference to assist you with field-related matters, this is your book. Experienced hydrogeologists and those in related fields will also welcome the practical time-saving and trouble-avoidance tips.

Capitalize on Cutting-Edge Techniques of Field Hydrogeology

• Field Hydrogeology • The Geology of Hydrogeology • Aquifer Properties • Basic Geophysics of the Shallow Subsurface • Groundwater Flow • Groundwater/Surface Water Interaction • Water Chemistry Sampling and Results • Drilling and Well Completion • Pumping Tests • Aquifer Hydraulics • Slug Testing • Vadose Zone • Karst Hydrogeology • Tracer Tests • Dye Trace Testing

From reader reviews:

Bess Malloy:

What do you in relation to book? It is not important along? Or just adding material when you want something to explain what you problem? How about your time? Or are you busy man or woman? If you don't have spare time to complete others business, it is make you feel bored faster. And you have extra time? What did you do? Every individual has many questions above. They must answer that question simply because just their can do that will. It said that about reserve. Book is familiar on every person. Yes, it is right. Because start from on pre-school until university need this specific Hydrogeology Field Manual, 2e to read.

Melissa Gusman:

In this 21st millennium, people become competitive in every single way. By being competitive at this point, people have do something to make them survives, being in the middle of the crowded place and notice by surrounding. One thing that often many people have underestimated this for a while is reading. That's why, by reading a e-book your ability to survive improve then having chance to stand than other is high. For yourself who want to start reading a book, we give you that Hydrogeology Field Manual, 2e book as nice and daily reading publication. Why, because this book is greater than just a book.

Robert Alcock:

As people who live in the modest era should be update about what going on or details even knowledge to make them keep up with the era and that is always change and progress. Some of you maybe can update themselves by reading books. It is a good choice for you but the problems coming to you actually is you don't know what kind you should start with. This Hydrogeology Field Manual, 2e is our recommendation to make you keep up with the world. Why, as this book serves what you want and wish in this era.

Katie Grossi:

Don't be worry in case you are afraid that this book may filled the space in your house, you could have it in e-book approach, more simple and reachable. This specific Hydrogeology Field Manual, 2e can give you a lot of close friends because by you investigating this one book you have issue that they don't and make anyone more like an interesting person. This book can be one of one step for you to get success. This e-book offer you information that probably your friend doesn't know, by knowing more than some other make you to be great individuals. So , why hesitate? Let me have Hydrogeology Field Manual, 2e.
