In over thirty years of practice, Robert A. M. Stern has developed a distinctive architecture committed to the synthesis of tradition and innovation and, above all, to the creation and enhancement of a meaningful sense of place. Inspired by the legacy of great American architecture, his firm, Robert A. M. Stern Architects, has produced a wide variety of building types at differing scales in a range of stylistic vocabularies throughout the world. This monograph, which follows volumes documenting Stern's practice in the years 1965-1980, 1981-1985, and 1987-1992, includes more than one hundred projects from the years 1993-1998. Also included in this volume are unbuilt projects and works in progress.
