Creating a Web Page in Dreamweaver: Visual QuickProject Guide Nolan Hester

Sure, the University of Rochester Medical Center used Dreamweaver MX 2004 to rebuild its vast medical library Web site, but all *you* want to do with it is create a simple Web page! This book is for you-and anyone else who wants to get from start to finish fast on their first Dreamweaver projects. As part of Peachpit's brand-new **Visual QuickProject** series, this slim, four-color volume recognizes that many of today's busy Dreamweaver users don't necessarily need or want to know about every single feature: Like you, they just want the quickest route to a functional, friendly site. This book provides that by focusing on a single project-a Web page-that you build as you go. Each short chapter uses full-page-width screen shots and step-by-step instructions to distill one aspect of this process-so that by the end of the volume users will have created a simple Web site, filled it with text and graphics, added navigation and links, and tested and posted the final product.
