Marissa Jones is stuck. She's too smart for all of the men at the Rebel Military Space Port. Life is fine, but as the space station slips ever closer to the stars beneath, Marissa knows she's going to have to change everything and escape. As if in answer, Hawk Campbell shows up at her door and helps her with the changes she needs. Little does she know, he's brought more of the past with him than either of them expected and too much change is something neither of them are ready for.

Hawk Campbell lost family to the government he thought was going to protect them. He enlisted as a Space Marine to try to find clues to what actually happened to his family. After years of searching, he discovered that he had lost even more than he'd ever known. With only a broken heirloom to his name, he searches out a childhood schoolmate with answers, but again discovers there is more left to uncover. Just as he finally finds something worth living for, he realizes he's going to have to start fighting for it.

Interview with the Author ??

Q - So, what makes this book so amazing?

??A - I'm sure readers are going to love the deep character arcs coupled with the real plot development that can be overlooked in erotica. While we're at it, these stories are not about useless women desperate for a man; get ready from some amazing heroines between these pages.

??Q - What's with the pen name? Who are you? ??

A - I'm just like most readers. I've got a family and kids. I cook, I take care of everybody, and work a day job on top of it all. I very seriously put family first, and while I'm okay with putting my name on these books, it would totally disturb my school-age-kids if word got out at recess that their parent writes smoldering hot stories.??The pen name Kindred Nights has been a long time in the making. It's as much an artist statement as a placard under which to publish my books.

It's meant to install that feeling of souls gathering around a fire at night. It's a break from the ordinary, when the lights go down. It's a mini-vacation, nestled into every day life. ??

Seriously though, readers who enjoy hot explicit xxx adult stories that don't mess around are going to love this. Its got a raging inferno heat level and will keep you at the edge of your seat.

Book 2 is just around the corner.

Thank you for giving it a try,

Much love,

Kindred Nights
