## **Inside a Plant (Science Readers: Content and Literacy)** Christina Hill

Plants need many things to stay alive, including food, sun, air, and water. Plants must get these important things in order to continue to go through a life cycle. Learn all about various habitats and the way that plants have adapted to survive in them. The vibrant images and easy-to-read text in this science reader will keep students engaged from cover to cover. This reader also includes instructions for an engaging science activity and practice problems to further students' understanding. A helpful glossary and index are also included for additional support.

## **About Shell Education**

Rachelle Cracchiolo started the company with a friend and fellow teacher. Both were eager to share their ideas and passion for education with other classroom leaders. What began as a hobby, selling lesson plans to local stores, became a part-time job after a full day of teaching, and eventually blossomed into Teacher Created Materials. The story continued in 2004 with the launch of Shell Education and the introduction of professional resources and classroom application books designed to support Teacher Created Materials curriculum resources. Today, Teacher Created Materials and Shell Education are two of the most recognized names in educational publishing around the world.
