Winning Turkey: How America, Europe, and Turkey Can Revive a Fading Partnership (Brookings Publications (All Titles)) Philip H. Gordon, Ömer Taspınar

Turkey has always been a crossroads: the point where East meets West, Europe meets Asia, and Christianity meets Islam. Turkey has also been a close and important American ally, but a series of converging political and strategic factors have now endangered its longstanding Western and democratic orientation. In *Winning Turkey*, two leading analysts explain this worrisome situation and present a plan for improving it. The stakes are clear. Turkey is the most advanced democracy in the Islamic world, bordering a number of the world's hotspots, including Iraq, Iran, and the Caucasus. It occupies the corridor between Western markets and Caspian Sea energy reserves. A stable, Western-oriented Turkey moving toward EU membership would provide a growing market for exports, a source of needed labor, a positive influence on the Middle East, and an ally in the war on terror. The picture has darkened, however, as rising anti-Americanism, deflated hopes for EU accession, civil-military tensions, and terrorist threats have destabilized an already volatile Turkish political system. *Winning Turkey* designs a plan to ease tensions in this critical part of the world. In addition to proposing a "grand bargain" between Turkey and the Kurds, it advocates greater support for increased liberalism and democracy, a renewed commitment by both Europe and Turkey to promote EU membership, a historic compromise with Armenia, and greater Western engagement with Turkish Cypriots.
